## PART TWO: MANAGEMENT OF NATIONAL PARK SERVICE PROGRAM

The NPS administers a broad range of programs that serve the conservation and recreation needs of the nation, but are not directly related to the national park system. Examples include the National Register of Historic Places; the Land and Water Conservation Fund Grants Program; the Historic American Building Survey; the American Battlefield Protection Program; the National Maritime Heritage Grants Program; the Rivers, Trails and Conservation Assistance Program; and the Tribal Heritage Preservation Grants Program. Part Two of *Management Policies*-to be added at a later date--will address policies applicable to these programs.
